Happy Holiday Season!

Freedom Bank wishes all our customers a happy July 4th Holiday!

Independence Day, July 4.

According to a poll compiled by the American Enterprise Institute, 91 percent of Americans say they are "extremely proud" or "very proud" to be Americans, and 93 percent say they'd rather live in the United States than any place else in the world.

Fireworks in the Nation's Capital

Historians say Thomas Jefferson was the first president to host a fireworks display at the Presidential Mansion in 1801 (before the White House was built). Independence Day celebrations continued in Washington, D.C., despite mayoral bans which were largely ignored. In the 1920s, city officials chose to use the Washington Monument grounds to host their own fireworks display which they felt would be safer than those of private individuals. The tradition lives on with the National Parks Service hosting one of the largest displays in the country on the National Mall.
